

439 Oak Park Ave
Aug 6th 1895.

My Darling Child.

I was greatly disappointed
at receiving no news of
you until this morning,
when your card & letter
arrived together. I have
only written you one
card so far, but Les
& Papa both promised
to write for me. Yesterday
& today I have been
gaining a little, but was
very bad Saturday & Sunday.
I am getting more & more
interested in that
"Osteopathy". Addie was

here this morning &
spoke of two cases which
have been helped in
Evansston, & Mrs. Nancy
was here yesterday, &
told me much about it.
Papa brought home last
night with him to
supper, Clarence Allen
of Dubuque. He was very
sympathetic & kind
couldn't keep the tear
out of his eyes at seeing
me in this miserable
condition. Jess took a
lesson last night, &
is very kind & attentive

all the time. Addie
is going to try & carry
Grandma to go & stay
with her awhile, & give
Aunt Emma a chance
to go away for a bit of a
holiday. I am afraid it
won't work. Uncle Miller
is rather better. Poor Papa
had a touch of Cholera
Morbus Saturday night.
I had to call Mrs. Cooper
to get Jess up to go to his
assistance. Things looked
rather blue for a while,
as I had gone to bed after
an hour's soaring with pain

Then Sunday was a faint
 day, however things passed
 by after a while & the
 soreness has worked out
 to the surface as it usually
 does, so I am somewhat
 relieved. I am so glad
 you are among such
 congenial people. Give
 my kindest love to them
 all especially your children
 Last night I called Mr C
 several times & could not
 wake him, when Lassie
 undertook the job & soon
 brought her to her feet with
 some sharp barks. Of course
 up jumped Papa too. but
 the dear little fellow had things
 all fixed himself. Dot Baby
 dog is not very well I am glad
 all is pleasant with you Kindest love
 & kisses from your loving Mother
